9/19/2011

Hope to see everybody there!

Field Day Raffle

The winners of the FD Raffle are:
The TV—Carl, WB2TCV
The Repeater Directory—Tom, N2NZD

Thanks for a very successful Raffle,
Stan, WA2UET

TARA's Mr Bill

Mr Bill, NY2U, is improving, and is now in Troy at the Diamond Hill Nursing and Rehabilitation Center.

Please send get well cards to the TARA PO Box:
Troy Amateur Radio Association-N2TY
PO Box 1292
Troy, NY 12181

NEW REPEATER

Hello, this is Dan KC2MZY. I put up a repeater in Sand Lake NY a while back @ 449.350 negative shift no tone. If the guys want to try it out that would be great and let me know how it works. I know it works good on the thruway and up north of here. It IDs W1GRM so don't think it is the wrong one. You can e-mail your comments to, danfullthrottle@verizon.net
Thanks Dan 73s

RVWARS WEB PAGE

The Web Page has been updated! We added some info on the main page to try to keep folks aware of events. Comments and suggestions are welcome. We will keep Dave Clappers design at least for now. Let me know what you think.
www.rvwars.com

GREENE COUNTY EMERGENCY NET'S

I don't know much about what is going on over there, I have not been there. But from what I am told, they have help from several counties surrounding the area. There is much support from SEMO and the ARRL. Things are going well. There will be several more days of EMCOMM needed. Any help is appreciated. Get ahold of Lenny, N2LEN, on the 147.150 repeater if you can help. PL 114.8. I believe it is continuously monitored. I have only seen the devastation on TV, it is unbelievable!!!

HOMELAND TOWER PROJECT

On 8/22 the crews arrived with a huge crane and the tower on a flat-bed truck and our shelter on a low-boy. I was there all day watching it happen. The tower went up without a hitch. Once they got the crane set up it all went well.

But when the shelter arrived on the lowboy they found that it was too low to make it over the humps. So they had to get a different truck out of Glens Falls down here to transfer the shelter on to. They finally got it in place. Weighs 35,000 lbs!!!

Now our big wait is to get electric service. The storm is slowing that down of course.

The cables are installed but the antennas are not in yet and they have to get the proper connectors for the cable. 3 antennas above the top of the tower and 2 at 100'. Maybe we will be back on the air by the end of September!

LABOR DAY WEEK-END TAG SALE
Cancelled!

RVW WORK PARTY

Although the tower company is going to clean up the mess, we will still need a work party sometime when the tower project is complete to move our equipment to the new shelter. Not sure when that will be but I will keep all posted. We will also clean up the brush and weeds around our old shelter.

Bruce J. Williams N7CXJ My Personal Website

I have a Website that I have been working very hard on and I am PROUD of it. It is filled with Ham Related LINKS but a mixture of other things I am interested in and I am sure others may find useful, as well. It is NO small site. It presently has 28 PAGES and growing. IT IS NOT A WEB PAGE.

MY WEBSITE ADDRESS IS:
www.n7cxj.web.officelive.com

MY E-MAIL ADDRESS:
n7cxj@hotmail.com for my website,
OR heyyou@fairpoint.net for my personal Email.

I hope to see you at the club picnic!

73,
Bruce N7CXJ

The below changes to the By-Laws have been voted on and changed.

4. Dues. The Dues Structure is:

- A. Single Member, \$25 per year.
- B. Family Membership, \$30 per year.
- C. Student Member, \$5 per year until he/she graduates.

D. Any unlicensed member of a RVWARS sponsored License Class who successfully passes the VE exam shall be awarded a free membership in RVWARS for the balance of the current year.

E. Membership is from January 1st to December 31st. New members joining the club after July 1 of the current year will be charged ½ year's dues for the current year.

F. Dues for active members of the military are free.

SWAP AND SHOP NET

The 2 meter Swap n Shop net will return on Sat Oct 1 at 8 pm on the N2LEN repeater 147.150 and 449.025 with pl 114.8 . Net control will be Todd KC2YKM. This is a good time to sell some used gear or maybe find something that you have been looking for. Join Todd on Oct 1 at 8 pm on the net.

TEN COMMANDMENTS FOR HAMS

I. Beware the lightning that lurketh in the undischarged capacitor, lest it cause thee to bounce upon thy buttocks in a most un-technician-like manner.

II. Cause thou the switch that supplieth large quantities of juice to be opened and thusly tagged, that thy days in this earthly veil of tears may be long.

III. Prove to thyself that all circuits that radiateth and upon which thou worketh are grounded and thusly tagged lest they lift thee to radio frequency potential and causeth thee also to make like a radiator.

IV. Tarry not amongst those fools who engageth in intentional shocks for they are surely nonbelievers and are not long for this world.

V. Take care-that thou useth the proper method when thou takest the measure of a high voltage circuit lest thou incinerate both thyself and thy meter, for verily, though thou hast no account number and can easily be surveyed, the test meter doth have one and, as a consequence, bringeth much woo unto the supply department.

VI. Take care that thou tampereth not with safety devices and interlocks, for this incurreth the wrath of thy supervisor and bringeth the fury of thy safety inspector down upon thy head.

VII . Work thou not on energized equipments for if thou dost, thy fellow workers will surely buy beers for thy widow and console her in other ways,

VIII. Service thou not equipment for electrical cooking. It is a slothful process and thou might sizzle in thine own fat for hours upon a hot circuit before thy Maker sees fit to end thy misery,

IX. Trifle thou not with radioactive tubes and substances lest thou commence to glow in the dark like a lightning bug and thy wife have no further use for thee except thy wages.

X. Thou shalt not make unauthorized modifications to equipment. but causeth thou to record all field changes and authorized modifications made by thee, lest thy successor tear his hair out and go slowly mad in his attempt to decide what manner of creature hath made a nest in the wiring of such equipment,

Trade/Sale/In Search Of

I have some 'used condition' amateur rig's I purchased in the past 'new' eg. -1 Alinco DR-605 2/440 mtr fm dual band'r, 6 mtr fm mono band'r, 2 mtr fm mono band'r some 'cb' rig's (am), 1 is a ssb/am. These rig's either DO or Do Not function! Mostly all are easy/cheap 'radio repair' issues eg. internal 'fusing' may-be final or a digital led 'quirk' whatever! My Quest is to swap/trade (barter?) whatever it 'takes from my 'rig collection' to acquire a simple mono mode cw or better if (Lucky:-) cw/ssb 2 MTR rig. Not qppp but qrp 5w or better. This can be Any 'working' stable rig, transverter, completer kit rig, (the mfj-2mtr is an example). If Anyone is Interested in 'trade' or trade/cash 'barter' I am open ears. :-)
 I've had much 2 mtr fun with fm now to go on with cw, and/or ssb. :-) -ke2eb George H. Call
